

Inspired to learn, learning for life

20 March 2020

Dear Parents and Carers,

As the list of key workers who may be eligible to send pupils to school during the closures has been released we are now in a position to update you on our offer at Manor Hill.

The school will be open for selected pupils from 9-3 Monday to Friday, and this will be the case for the next two weeks in the first instance. We will review the provision next week. I must stress that for those wishing to use this facility we would ask that all other possibilities have been considered and exhausted. I understand that this is very challenging for parents however we must as a community work together to maintain social distance where possible, we hope to keep numbers as low as possible to reduce the spread of the infection and to protect children and staff.

If you consider that you are a key worker and will need childcare please call the school office to register your interest. Office staff will take your details and you will be called back during the day to make further arrangements. We must know in advance who is attending, and when, in order to staff the provision we will not accept pupils turning up without notice and who do not fit the agreed criteria.

Thank you for your ongoing support

 Mrs Roden
